### DETAILED ACTION

1. In view of the decision of the Board of Patent Appeals and Interferences filed on July 8, 2004, PROSECUTION IS HEREBY REOPENED. A new ground of rejection is set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) request reinstatement of the appeal.

If reinstatement of the appeal is requested, such request must be accompanied by a supplemental appeal brief, but no new amendments, affidavits (37 CFR 1.130, 1.131 or 1.132) or other evidence are permitted. See 37 CFR 1.193(b)(2).

2. According to the decision of the Board of Patent Appeals and Interferences filed on July 8, 2004, claims 1-18, 20, and 21 have been affirmed.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 19 is rejected under 35 U.S.C. 103(a) as being unpatentable over Naka et al. and Stamper et al. or Curchod as applied to claim 18, and further in view of Best (5,358,259).

Naka et al. and Stamper et al. or Curchod teach all limitations in claim 18, as being affirmed by the Board of Patent Appeals and Interferences.

Naka et al. teaches a multi-player video game with cooperative mode and competition mode; and Stamper et al. or Curchod teaches a video display system having split screen means.

Naka et al. and Stamper et al. or Curchod do not explicitly teach the limitation of a cooperative action game comprising cooperative action required by cooperative action means includes giving an item to a player.

Best, however, teaches a cooperative action game comprising cooperative action required by cooperative action means includes giving a rope to a player, see Figures 4 and 5, and column 7, line 58 to column 8, line 19.

It would have been obvious to a person of ordinary skill in the art at the time of the invention was made to combine Naka et al.'s and Stamper et al.'s or Curchod's with a multi-player video game of Best to enhance realistic interactions between players in a multiplayer video game.

5. Applicant's arguments with respect to claim 19 (Applicant's Substitute Brief, page 25, line 6 to page 26, line 6; and Applicant's Reply Brief, page 7, lines 5-10) have been considered but are moot in view of the new ground(s) of rejection.
